

electrobites

# GUMMIES

## Product Facts

Contains 110 Gummies

**Serving Size:** 4 Electrobites

**Active Ingredients per Serving:** Himalayan salt, Alaeen salt, banana extract, potassium chloride, calcium carbonate, magnesium oxide (source of):

Chloride.....	1,360mg
Sodium.....	600mg
Calcium.....	400mg
Potassium.....	300mg
Magnesium.....	20mg

**Inactive Ingredients:** Tapioca, erythritol, agar, locust bean gum, water, vegetable glycerin

**Directions for Use:** Administer 4 Electrobites after strenuous activity when horse has been sweating or in other situations where replenishing lost minerals and electrolytes, or encouraging the horse to drink is desired. Fresh, clean water should always be available. May be fed in addition to a daily dose of Electrofresh. Store in a cool dry place (45°F-75°F) out of direct sunlight with lid closed.

**Caution:** Gummy color may naturally change over time. This does not affect the potency or efficacy of the product. Any clouding of clear bottle is normal. To maintain quality and potency, product is manufactured with higher active ingredient levels than indicated amount per serving. Safe use in pregnant animals or animals intended for breeding has not been proven. If animal's condition worsens or does not improve, stop product administration and consult your veterinarian.

**Warnings:** For animal use only. Keep out of reach of children. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

Equine Elixirs' liability for use of this product shall not exceed this product's purchase price. Equine Elixirs shall not be liable for any consequential or incidental damages resulting from use of this product.
